

JOINT ANNOUNCEMENT FROM SNOWDOME FOUNDATION,
WOMEN IN LYMPHOMA & LYMPHOMA AUSTRALIA.

June 30, 2022

Snowdome Foundation is very proud to have supported the global Women in Lymphoma (WiL) initiative since establishment in October 2020.

Snowdome - having delivered on its promise to lend administrative and governance support to WiL, enabling them to greatly expand over the past 18 months - is very pleased to announce WiL's move to their new home at Lymphoma Australia where they are best placed for their next stage of growth.

We congratulate Dr. Ann LaCasce, (USA) on her appointment as the of Chair of WiL, effective January 1, 2022.

We thank Prof. Judith Trotman (Australia) for her leadership of WiL as Chair, during which the organisation enjoyed considerable success - membership grew from 120 to 600, the global Steering Committee was established and a host of engaging webinars were conducted.

Lymphoma Australia will commence governance support of WiL from July 1, 2022.

We are honoured to have been part of this great work and wish WiL the very best for the future. We are all looking forward to cheering their continued success.
